

WATERTUBE AND FIRETUBE BOILERS

Victory Energy manufactures a full line of watertube and firetube boilers ideally suited for demanding applications.

Watertube O, D, and A-type Designs

- Pressures range up to 2,000 PSIG
- Temperatures up to 1,050°F
- Saturated or Superheated Steam

Firetube Wetback and Dryback Designs

- 2,3, and 4-pass Configurations
- 50 to 2,500 HP
- Up to 86,250 PPH

VOYAGER series O-Type Watertube Boiler

DISCOVERY series D-Type Watertube Boiler

VOYAGER series A-Type Watertube Boiler

FRONTIER series Firetube Boiler

HEAT RECOVERY SYSTEMS

Quality materials and superior construction is essential to producing reliable heat recovery units designed to reduce a carbon footprint.

Waste Heat Boiler (WHB)

- Up to 500,000+ PPH

Heat Recovery Steam Generator (HRSG)

- Up to 200,000+ PPH

Economizer Heat Recovery

- 100 BHP to greater than 1,000,000+ PPH

HORIZON series WHB Waternube Boiler

HORIZON series WHB Firetube Boiler

HORIZON series HRSG Heat Recovery Steam Generator

EXPLORER series Economizer Heat Recovery Unit

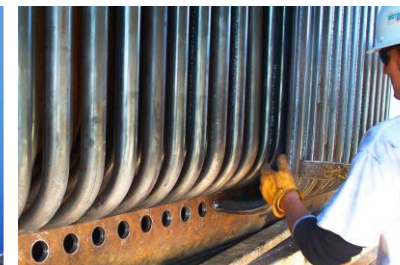

BURNERS

Victory Energy manufactures industrial burner solutions delivered through a comprehensive line of low NOx Burners.

- VISION Pro Series Burners

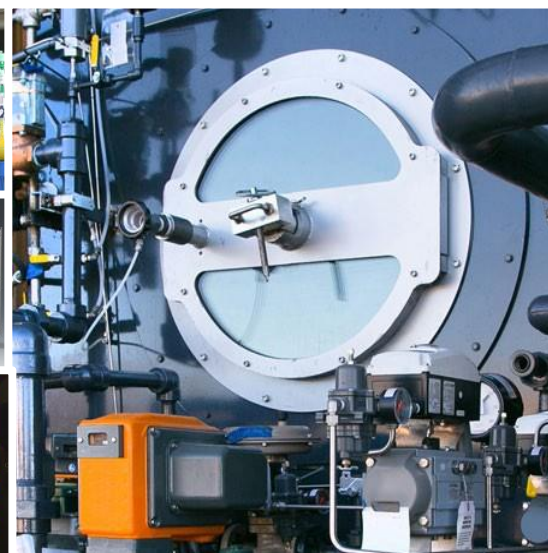

SERVICES

- Combustion Solutions
- End-Market Solutions
- Engineered-to-Order Solutions
- Steam Test Facility
- Field Services
- Spare Parts
- Rental / Mobile Systems

VISION Pro Series Low NOx Burners

END-MARKET SOLUTIONS

COMBUSTION SOLUTIONS

GENESIS series HTHW High Temp Hot Water Generator
